## BATTLE OVER PAYNE'S BILL

Will be Long and Well Contested—Every Congressman Looking Out for Individual Interests

Washington, D. C., March 23.—That there will be a lively contest over the tariff bill is evidenced by the preparations that are being made by the sponsors for the bill and by those who oppose it.

Chairman Payne, ably supported by his chief lieutenant, John Dalzell, of Pennsylvania, and the other republican members of the ways and means committee, together with Representative Broussard of Louisiana, will be armed with thousands of documents and communications for the defense of the provisions in the Payne bill. A special corps of tariff experts will be ready to supply information to Chairman Payne on the floor at a moment's notice.

Champ Clark, minority leader, has taken possession of John Sharp Williams' old room and is occupied with the preparation of the report of the minority members of the ways and means committee. The democratic members are going to make a strong fight against every protective duty in the bill unless it is a revenue producer.

### Lumber is Common Ground

There probably will be several duties on which the Payne and Clark forces will join in fighting other opposition. This is due to the fact that Mr. Payne is not a high tariff man. When an amendment is offered to increase the duty of \$1 a thousand feet, provided for lumber by the Payne bill, Mr. Payne and Mr. Clark will be found standing together in opposition to the increased duty; and each will find that some of his trusted aides have deserted him. This illustrates the feeling that prevails throughout the membership of the House—that every member should work for the interests of his individual constituency.

### Plan for Florida Camphor

Synthetic camphor, a product of synthetic chemistry, made from oil of turpentine, has been assessed a duty of 6 cents per pound, the same as is now imposed on refined camphor. As a result of an experiment conducted by the department of agriculture with camphor grown in Florida, this industry promises to become of considerable importance, it being proposed to plant camphor trees in those sections of that state where the orange industry has been driven out by the frosts. The tariff framers received many protests against the placing of a duty on synthetic camphor, which in the past has been admitted free of duty as crude camphor.

### NIGHT ON BALD MOUNTAIN

On a lonely night Alex. Benton, of Fort Edward, N. Y., climbed Bald mountain to the home of a neighbor, and by his light bent on curing him with Dr. King's New Discovery, that had cured himself of asthma. This wonderful medicine soon relieved and quickly cured his neighbor. Later it cured his son's wife of a severe lung trouble. Millions believe it the greatest throat and lung cure on earth. Coughs, colds, croup, hemorrhages and sore lungs are surely cured by it. Best for hay fever, grip and whooping cough. 50c. and \$1. Trial bottle free. Guaranteed by all druggists.

### GERMANY'S AERIAL GUNBOATS

Kaiser William's Formidable Squadron of Air Cruisers, of Which the Parseval is a Type

Berlin, March 23.—A new dirigible and the eighth of Germany's aerial fleet of the Parseval type, made a successful trial flight here of thirty-five minutes—rising to a height of 750 feet, carrying six persons, and returning to its starting point—at an average speed of fifty kilometers an hour. This dirigible, known as Parseval III, measures nearly sixty-two meters long and 11 meters wide, and has a capacity of 5,000 meters. Its lifting power is enormous, as the balloon weighs 6,000 kilos. It is highly maneuverable and is propelled by two 100-horse power motors, driving two screws, and is able to carry 500 liters of petrol, which is sufficient to enable it to make a flight of ten hours.

### A Religious Author's Statement

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to sit up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy." Sold by all dealers.

### BETTER THAN LYNCHING

Short Shrift for a Negro Rapist and Murderer

Richmond, Va., March 23.—Aurelius Christian was electrocuted in the state penitentiary yesterday. He was the negro who assaulted and murdered Miss Mary Dobbs in Botetourt county, and was taken from Clifton Forge to Fincastle. Three lawyers were assigned to him. He confessed to them and repeated it in court. The court heard three witnesses as to time and place. No jury was summoned, but the judge declared him guilty and sentenced him to die. Only twenty-one minutes was consumed in the proceedings which, a spectator said, was better than a lynching.

### LOVERS

Of good health should prevent sickness instead of letting themselves get sick and then try to cure it. So long as you keep your liver, bowels and stomach in a healthy and active condition you won't get sick. Ballard's Herbine relieves constipation, inactive liver and all stomach and bowel troubles. Sold by the Anti-Monopoly Drugstore.

Eagles meet Wednesday evening.

## PANTHER INVADDED THE STREETS OF PERRY

Perry, March 23.—Everybody knows that Taylor county is the best wild game county in the state, but few would have thought that panthers stalked the streets of Perry. A few days ago a large panther entered the yard of Mr. W. E. Quarterman, the popular Florida railroad conductor, and attacked his two dogs, killing and eating one and badly wounding the other. A negro servant, rooming near the dog house, heard the commotion and opened the door, when the wounded dog ran inside and the negro saw the panther sitting in the yard devouring the other dog. He was too badly frightened to do anything but crawl under the bed without giving an alarm. Neighbors heard the commotion, but supposed the dogs were fighting, and did not investigate until the panther had departed, leaving nothing but his tracks and a partly devoured dog.

## BLUE LAWS ABANDONED

People of Pensacola Would Not Stand for Restriction of their Sunday Liberty

Pensacola, March 23.—The Florida blue laws, which Sheriff Van Pelt enforced so rigidly a few weeks past, are now dead letters so far as this city is concerned, judging from the inactivity of the authorities Sunday in the face of open violations of these old statutes. Cigar and soda water stands remained open throughout the day, doing a thriving business; pleasure boats plied the harbor, and two games of baseball were played.

### ENGLAND GREATLY ALARMED

Fears German Supremacy Not Only on Land and Sea, but in the Air

London, March 23.—Englishmen are passing through a genuine war scare. What proportion of it is based on sound reason and what is purely a jingo alarm, following the popular excitement over the patriotic play, "An Englishman's Home," which graphically portrays what would be likely to happen in case of a foreign invasion, is a matter of opinion.

But allowing for the permanent and persistent factors which arouse in season and out of season that Germany is hatching gigantic military designs against the Empire, there is no denying that the feeling of unrest, if not alarm, has seized the minds of more serious and some political observers.

### Aerial Warfare Discouraged

The keen discussion of aerial warfare keeps abreast of the paramount issue of tremendous increase of naval strength.

Premier Asquith's statement in the House of Commons on German rivalry was virtually an official pronouncement, that, speaking in Dreadnoughts, the two-power standard was gone and that at Germany's rate of progress England would need all her resources to maintain a one-power supremacy.

Mr. Balfour has pointed out that if Germany continues her naval program at her present rate the relative position of the two nations in 1912 would be, Great Britain, twenty Dreadnoughts; Germany, twenty-one Dreadnoughts. If the Germans imitated Great Britain's new policy of collecting materials and armaments beforehand, Germany would have twenty-five Dreadnoughts.

### GO WITH A RUSH

The demand for that wonderful stomach, liver and kidney cure, Dr. King's New Life Pills—is astounding, say all the druggists; that they never saw the like. Its because they never fail to cure sour stomach, constipation, indigestion, biliousness, jaundice, sick headache, chills and malaria. Only 25c. For sale by all druggists.

### TOOK A TERRIBLE TOLL

Tribute Enacted by the Sea from the Navigators of the American Atlantic Coast

Boston, March 23.—Two hundred and twenty-one persons perished by shipwreck and eighty-one vessels met with disaster off the New England and British North American coasts, or while engaged in the New England or Canadian trade, during the fall and winter season of 1908-'09, which ended last night. Of the eighty-nine vessels cast ashore or lost at sea, six steamers and fifty-six sailing craft were totally wrecked. The financial loss exceeds \$2,000,000.

The most thrilling disaster of the season was the collision between the White Star liner Republic and the Italian steamer Florida.

### WORMOLOGY

should be studied by every parent. If your child is nervous, fretful, starts in his sleep, is pasty faced, has rings under its eyes, always seems hungry, is not gaining weight, you can be sure the trouble is worms. White's Cream Vermifuge is an absolute cure for worms. Is its own purgative. Sold by the Anti-Monopoly Drugstore.

### OXFORD

A good trimming up to the oaks on Main street from the post office to the school house, which was given Thursday last, adds much to the looks of that portion of town.

Mr. J. P. Driscoll's youngest child died Thursday afternoon with an attack of membranous croup. The attention and efforts of physicians were unavailing. The community sympathizes with the parents in their bereavement.

Mrs. A. M. Kirk has been quite sick with malarial fever for some days, but we are pleased to report that in the opinion of her physicians she is improving and it is hoped will soon be wholly recovered.

Mr. Newsum, from Lynne, Ind., who has been here all winter, stopping most of the time at Mrs. E. J. Penberton's, passed away Friday afternoon. His death was not unexpected, a brother attended by a physician having come down last Tuesday to be with him at the end. Another victim claimed by the great white plague. Mr. Newsum's brother went Ocala Friday night to secure a casket and an embalmer in order to carry the body back to Indiana for interment. The sympathy of the community goes out to the wife, who so faithfully cared for him to the last, and is now left desolate.

## THE APRIL AMERICAN MAGAZINE

True stories of plots, abductions, dynamiting and attempted murder undertaken against the San Francisco graft proposition, form the subject of a thrilling article by Will Irwin in the American Magazine for April.

Jesse Lynch Williams contributes to the same number stories by Grover Cleveland and stories about him. The article is full of anecdotes showing the great statesman's dry and lively humor. Ida M. Tarbell, writing a side-light on the most lively question now before Congress, exposes the various ways of juggling with the tariff, and practically declares herself to be in agreement with President Taft, who favors the appointment of a tariff commission. Professor W. I. Thomas tells of the "Older and Newer Ideals of Marriage." William Allen White describes "Progress" in American Cities, and Charles W. Wood tells of his experience during the last six months in "Looking for a Job."

Fiction of an unusual excellence is contributed by Stewart Edward White, Richard Washburn Child, Edward Peple and Alvin Higgins Prosser. The number also contains "Letters from G. G." and the serial, "Margaria's Soul" by the new novelist, Ingraham Lovell.

"The Interpreter's House" and "The Pilgrim's Scrip" contain their usual amount of meaty reading.

### THE ROAD TO SUCCESS

has many obstructions, but none so desperate as poor health. Success for day demands health, but Electric Bitters is the greatest health builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, and tones and invigorates the whole system. Vigorous body and keen brain follow their use. You can't afford to slight Electric Bitters if weak, run-down or sickly. Only 50c. Guaranteed by all druggists.
